

# PROPOSAL FOR CHANGE IN PROGRAM

## UNIVERSITY CURRICULUM COMMITTEE

University of North Carolina at Wilmington

Wilmington, NC 28403

Type of program change proposed (check all that apply)

	Establishment, dissolution, division, or consolidation of academic departments or other degree-granting entities
	Establishment, dissolution, or revision of academic degrees, including majors, minors, and certificate programs
	Policies for maximum and minimum hours required for majors, minors, and certificates
	Total number of hours required for graduation
	University-wide competency requirements (other than basic studies, oral communication intensive, or computer competency)
XXX	Course prefixes
	Curricular conflicts between schools and/or colleges
	Other general curricular policies which have total university impact

Description of proposed program change:

The designation of POM (for production and operations management) has been changed in recent years to the more common OPS (for operations management). This has changed to the point that current texts for the discipline courses are no longer tiled with production and operations management but with simply operations management.

The course prefix change will reflect the industry, discipline, and textbook changes in the moniker during recent years.
