Student's Perspective for Declaring a Major

1. Log into MySeaPort using your username (email without the @uncw.edu) and your email password

2. Click on the Student Services tab in the top navigation
3. Click on Major Declaration/Curricular Updates on the right navigation

4. At this screen, push Continue to start the declaration process.

Declaration of Major

Use this application to declare your major. Some restrictions apply. Be sure to consult with your University College advisor and/or run a what if degree audit before making any changes to your major.

Please ensure that you select the Placeholder Cluster when declaring. This is done by selecting "Add Minor", then "CUCC - Placeholder Cluster UC". You are required to maintain a Thematic Transdisciplinary Cluster, in order to graduate from UNCW. This placeholder will act as a reminder to discuss with your new advisor.

If you have any questions please call the University College at (910) 962-3245 or uc@uncw.edu.

Select Continue to get started...

5. Read the information on the pop-up menu and push OK.
6. At this screen, push Declare Major to choose your major.

7. Students must choose a college, degree, major and concentration (if applicable), then a button will appear that says Add Major. Push this button when finished.

8. To finish declaring, students can either add another major or add a minor. When finished, the Submit Changes button will become active, click Submit Changes to finish.
