

Peer Review Form for Faculty Annual Review Dossiers

Notes regarding saving and sending this document:

1. If you are working on a Mac, please make sure you open the document with Adobe Acrobat. The default viewer for Macs is 'Preview', which will allow you to open the documents and fill in the fields, but it will not save the content when you submit the completed form.
2. Clicking "Submit" at the bottom of the form will save the document and attach it to an email addressed to Mary Browning. Adobe will use whatever default email application you have setup on your computer. Once you've submitted one form you can simply clear the fields and start your next review.
