

Learning Goal: Information Literacy

Dates: 2005, 2009, 2011

What was assessed: quality and nature of undergraduate experience

How it was assessed: Seniors using the National Survey of Student Engagement (NSSE)

Results:

	Year	Very little	Some	Quite a bit	Very much	Mean
11g. Using computing and information technology	2005 UNCW (n=333)	2%	13%	37%	47%	3.29
	2009 UNCW (n=494)	4%	14%	37%	45%	3.24
	2011 UNCW (n=635)	3%	18%	34%	45%	3.21
	2011 Carnegie (n=63,690)	4%	17%	34%	45%	3.21

Discussion:

79% of UNCW seniors report using computing and information technology quite a bit or very much. This is identical to the results across all participating universities in our Carnegie class.
