

Statement for Students

This course and section has been selected to participate in the campus-wide General Education Assessment process. Existing assignment(s) or partial assignments for this course will be chosen for this purpose. This assignment/assessment will be graded by your instructor as explained in the syllabus. The separate scoring of the assignment/assessment (or use of data) for the purposes of General Education Assessment WILL NOT affect your grade in the course, or any other course work at UNCW. It will, however, help the university to identify potential ways to improve student learning in general. We will remove all identifying information from your work so your confidentiality will be maintained during the scoring and tabulation processes. It is possible that an oral presentation could be selected for this process. In that event, although the faculty scorers who will later observe the recordings will be able to identify you during the presentation, no personal identifying information will be part of any reports of findings and the recordings will not be used for any purpose other than being scored for general education assessment. In addition, in accordance with university regulations, observers are required to maintain confidentiality with respect to all aspects of this observation, including all information presented during the presentations. You can learn more about the General Education Assessment process by visiting our website:
