COVID-19 Decision Tree for Close Contact

Student Version

Student has been in close contact with someone who has tested positive for COVID-19.

Is the student vaccinated?

YES

The student is advised to:

- Complete the daily health assessment
- Test within 3 to 5 days of contact
- Continue to go to class
- If the student develops symptoms, they should contact the Student Health Center and stop going to class/attending in-person activities.

NO

The student is advised to:

- Quarantine for 10 days from the last date of contact
- Contact the Student Health Center
- Do NOT attend class or other in-person activities

Is the student experiencing symptoms?

YES

The student is advised to:

- Call the Student Health Center for advice on testing and care
- Do NOT attend class or other in-person experiences

NO

The student is advised to:

- Quarantine for 10 days from the last date of contact
- Contact the Student Health Center
- Do NOT attend class or other in-person activities

Notes:

1. Faculty/Staff/Administrators should NOT use this decision to advise students; students asking for advice should contact the Student Health Center – this decision tree is provided to demonstrate the advice students will be given.
2. If faculty members are concerned about the level of class attendance, contact your department chair/school director to consider a temporary modality shift under the Course Modality Modification guidance.
3. A close contact is defined as being within 6 feet to an individual for 15 minutes or more within a 24-hour period.
4. Students who have tested positive for COVID-19 should not attend classes until they have been cleared to return.
