The Marine Conservation option provides a B.S. Marine Biology degree plan that is designed for students primarily interested in the biological aspects of conservation science in marine environments (e.g., community ecology, population biology, biogeography, conservation genetics and assessment of threatened or endangered species and habitats).

A major in Marine Biology can be declared after completing 24 credit hours and BIO 201 and BIO 202, or equivalent courses, with a grade of 'C' (2.00) or better in both courses.

**Core Requirements:** (28 hours total)

- 201 Principles of Biology: Cells (4)
- 202 Principles of Biology: Biodiversity (4)

***BIO 201 and 202 are the prerequisite courses for all biology courses numbered 300 and above***

- 335 Genetics with lab (3) (1), prerequisites: BIO 201 and BIO 202
- Physiology, chosen from one of the following bullets:
  - 325 Molecular Biology of the Cell with lab (3) (1), prerequisites: BIO 201, BIO 202, and CHM 211/CHML 211
  - 340 Plant Physiology (4), prerequisites: BIO 201, BIO 202, and CHM 102/CHML 102
  - 345 Animal Physiology with lab (3) (1), prerequisites: BIO 201, BIO 202, and CHM 102/CHML 102
- 362 Marine Biology with lab (3) (1), prerequisites: BIO 201 and BIO 202
- 366 Ecology with lab (3) (1), prerequisite: BIO 201 and BIO 202
- 466 Conservation Biology (3), prerequisites: BIO 201, BIO 202, BIO 366, and junior or senior standing
- 495 Seminar (1), prerequisites: BIO or MBY major; Senior standing

**Applied Learning** — To satisfy the applied learning requirement for the B.S. in marine biology a student must successfully complete one of the following: honors in any science department (BIO 499, CHM 499, EVS 499, GLY 499, MAT 499, PSY 499, PHY 499); directed individual study involving hands-on experience in any science department (BIO 491, CHM 491, EVS 491, GLY 491, MAT 491, PSY 491, PHY 491); BIO 498 Internship, BIO 493 Teaching Practicum; formal student teaching experience taken for UNCW credit (e.g. EDNL 406, EDN 409, EDN 411); BIO 480 Field Studies; BIO 495 Senior Seminar.

**Marine Biology Requirements (8 Hours)** (prerequisite for all: BIO 362)

- 313 Marine Phycology (4) or 412 Marine Botany (4)
- 318 Invertebrate Zoology (4) or 457 Ichthyology and 457L Ichthyology Lab (3) (1)

**Marine Biology Electives:** a **minimum of 10 hours** chosen from the courses listed below and not used to satisfy other requirements.

<table>
<thead>
<tr>
<th>Course 1</th>
<th>Course 2</th>
<th>Course 3</th>
<th>Course 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>313 Marine Phycology</td>
<td>412 Marine Botany</td>
<td>470 Mariculture</td>
<td>486 Advanced Topics in Mariculture</td>
</tr>
<tr>
<td>318 Invertebrate Zoology</td>
<td>430 Evolutionary Biology</td>
<td>487 Intro. to Coastal Management</td>
<td>491 Directed Individual Study</td>
</tr>
<tr>
<td>358 Marine Mammals</td>
<td>434 Coastal Marine Ecology</td>
<td>498 Internship in Biological Sciences</td>
<td>499 Honors work in Biology</td>
</tr>
<tr>
<td>363 Coral Reef Ecology</td>
<td>452 Mammalogy</td>
<td>367 Antarctic Ecology</td>
<td>457 Ichthyology</td>
</tr>
</tbody>
</table>

**Total elective hours**

A “C” (2.00 GPA) or better average in Biology courses numbered above 299 and an overall 2.00 GPA in all courses are required for graduation.
