**Report: 2014 Annual Security and Fire Safety Reports**  
Business Affairs Committee

This annual report to the Business Affairs Committee of the Board of Trustees includes select information published in the 2014 Annual Security Report and the 2014 Annual Fire Safety Report. The information contained in these federally required reports includes certain crime statistics for the three most recent full calendar years (2013 – 2011) and institutional policies concerning campus security, such as policies concerning alcohol and drug use, sexual assault, crime prevention, the reporting of crimes and other matters. The fire report outlines fire protection systems, policies and procedures that apply to residence hall fire safety, as well as educational efforts on fire safety. It also includes a log of fire events within residential facilities on our campus.

These reports are published on the University Police and Environmental Health & Safety websites. The information is made available to all current and prospective students and employees. Certain statistics are submitted to the U.S. Department of Education. No action is required of the Board of Trustees.
