

UNIVERSITY of NORTH CAROLINA WILMINGTON

Board of Trustees

Recommendation for Action

[November 20, 2014]

Recommendation: Approval of “Sundial”

The Sundial and installation will be philanthropically funded and located in the small landscaped circle to the north of Randall Library. The Sundial will be used by the Physics Department for instructional purposes and will provide a decorative and functional amenity.

At this time, the University is asking approval from the Board of Trustees to proceed with the installation of the sundial on a concrete base of appropriate scale in a landscaped circle surrounded by sidewalk to the North of Randall Library.
