School of Nursing

Administrators: 3
   1 Director
   2 Associate Directors (Associate w/tenure)

Faculty: 50
   9 w/tenure (2 Endowed professors, 3 full, 4 Associate)
   18 tenure track (2 Associate, 16 Assistant)
   23 Lecturers

Staff: 3
   1 Administrative Specialist
   2 Administrative Assistants

Simulation & Skills Lab: 3
   1 Coordinator
   1 Lab Professional Assistant
   1 Lab Assistant

PT Faculty: ~25/semester
The mission of the School of Nursing is to educate nursing and clinical research professionals through excellence in teaching, scholarship, service and community engagement.

Emphasis is placed on educating individuals to improve health outcomes and quality of life in diverse populations.
What is Clinical Research?

Science and business of developing new medically therapeutic products

• New drug, biologic, or medical device products
• Involves the understanding and management of regulatory compliance (safety & effectiveness)
• Monitor and carry out clinical trials & adverse events
• Use of new indications or patient populations for current products

Potential to improve health, well-being, extend lifespan and improve quality of life
Why do students choose NSG and CLR professions?

• Interest in a helping profession
• Interest in health and life sciences
• Variety of opportunities upon graduation
• Favorable employment market
• Competitive salaries and benefits

Program Highlights

UG Nursing

- PreLicensure: 241 students
- Plan for accelerated option
- NCLEX Pass Rate: 93%
- RNBS: 951 students
- 6 Admission Periods
- 7 Week course terms

UG Clinical Research

- 112 students
- 45 Student Interns
- New CLR Minor

FNP: 111 students
- Certification Pass Rate: 100%
- Fall 2016 Doctorate of Nursing Practice Program (DNP)

Graduate Nursing

- 112 students
- 45 Student Interns
- New CLR Minor

Graduate Clinical Research

- Started in 2011
- 36 students/12 Graduates
- Proposal for a concentration in biostatistics

Our FNP clinical preceptor placements
Innovative Instruction & Simulation Learning

Leads the state in innovative programs

Prepares students for 21st century practice through the use of technology

Focuses on skill development, interprofessional communication and critical thinking

Replicates clinical environments – using human patient simulators or standardized patients

Realistic simulation environment and a powerful learning experience that promotes cognitive, affective, physical and social development of the student

Focused on active learning, research, interprofessional education, innovation, entrepreneurship and community partnerships
