Breakout Boxes are a fun way to engage your students in problem-solving and critical thinking skills.

The games can be adaptable to any subject and as students work together, under pressure, they enhance their communication skills.

Join us to explore the options for creating your own Breakout Game with items you may already have in your classroom.

In this 2-hour workshop, participants will:
- experience a Breakout Box Game using a variety of tools
- learn how to reset locks and set up a Breakout Box Game from scratch
- consider ways to organize and manage all parts of the Breakout Box Game
- review a Breakout Box planning template that can be used to create your own games easily

2 hour in-person session with 1 hour assignment for 0.3 CEUs
Date: Tuesday, May 3, 2022
Time: 5:30pm – 7:30pm
Location: UNCW, 626 MacMillan Avenue
