

Evaluation Planning for NSF Proposals: Initial Phase

1. What is the overall vision for the proposed project?

--

2. Complete the following table based on your current proposal draft. List one goal/objective per row.

Goal/Objective	Current state that you hope to affect	Project activities that will help reach the goal/objective	Target status that you hope to reach

3. Describe the role of the external evaluator for this project.

4. Describe the population that will participate in this project. Include the number of participants and demographics of the target population.

5. What IRB requirements will need to be considered for this project? Will data be collected from sensitive populations or those under 18? Do you plan to audio or video record?

6. What is your plan for receiving, interpreting, and using formative data provided by your external evaluator?
