registration deadline are \$40.00

**Registration is NOT complete until
payment received**

Registration:

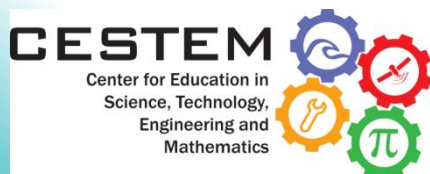

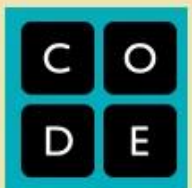

Online: www.uncw.edu/cestem/

This workshop will introduce you to a variety of classroom-tested tools for programming. During this workshop you will learn to use: Bee Bot, Pro Bot, Makey Makey, Lego, Arduino, and Raspberry Pi. You will get to choose the tools you want to focus on appropriate for your grade level. You will even learn some programming activities that do not require computers! We have technology tools for all grade levels and simple modification of the activities makes them applicable to students in grades **K-12**.

This workshop is open to **30 participants** so sign up quickly and send your payment to reserve your spot!

THE HOUR OF CODE IS COMING!

Every student in every school should have the opportunity to learn computer science
