

HOUR OF CODE Teacher Workshop

Do you want to learn basic coding so your students can participate in the **Hour of Code**?

Date and Time:

Saturday, November 3, 2018
8:30 AM – 11:30 AM

Location:

UNCW Watson College of Education,
Room 162

Instructor:

Michelle Hafey

Credit:

Letter of Participation for 0.3 CEU's

Registration Deadline:

Wednesday, October 31, 2018

Fees (non-refundable):

\$15.00 per participant via check
made to "UNCW CESTEM" or cash
**Registration is NOT complete until
payment received**

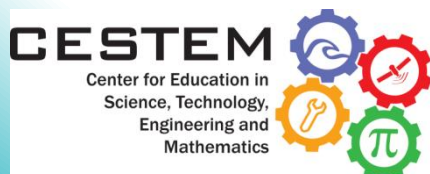

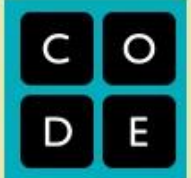

Registration:

Online: www.uncw.edu/cestem/

This workshop will introduce you to a variety of classroom-tested tools for programming. CESTEM has many of these tools available for checkout from our Technology Loan Program. During this workshop, explore the use of Bee Bots, Pro Bots, Makey Makeys, Lego Robots, Arduinos, and Raspberry Pi. Decide which tools are appropriate for your grade level and develop a plan to use them in your instruction this year. You will even learn some programming activities that do not even require computers! We have technology tools for all grade levels and simple modification of the activities makes them applicable to students in grades **K-12**. This workshop is open to **30 participants**

THE HOUR OF CODE IS COMING!

Every student in every school should have the opportunity to learn computer science
