

STARLAB PORTABLE PLANETARIUM WORKSHOP

*Are you interested in having your students learn inside a StarLab Planetarium?
Ever wonder how we can view the sun safely using a telescope?*

This three-hour workshop will provide teachers with the knowledge they need to check out UNCW CESTEM's portable cylinder based StarLab Planetarium system as well as introduce Astronomy in fun and exciting ways for your classroom! With full instructions, set-up and show demonstrations, as well as an introduction to using a solar telescope, teachers will learn the basics of StarLab operation in addition to developing their own planetarium show! This workshop will be held in the Watson College of Education on UNCW's campus.
