

# Vernier Probeware Workshop

Go!Temp Probes!

Structures & Materials Tester!

Discover how to integrate  
Vernier Probeware  
into your classroom!

## Workshop Description:

This engaging session will introduce you to the various ways that Vernier probes and sensors can be used for data collection in your classroom. Learn to use the equipment with a variety of interfaces such as Laptops, LabQuests and LabPros. Participate in lab activities and explore ways to integrate this technology tool into your instruction. Discover the numerous Vernier resources that CESTEM has available for teachers in their Technology Loan Program. Handouts will be provided.
