

Admission Requirements:

The minimum admission standards for candidates for the Clinical Research Operations Certificate program:

A bachelor's degree preferably in a life science, health care discipline, or mathematics/statistics from a regionally accredited university or college in the U.S. (or its equivalent from a foreign institution based on a four-year program) with a minimum GPA of 2.5.

To apply for admission to the graduate Certificate in Clinical Research Operations program, the candidate must submit the following:

1. An application for graduate admission.
2. Official transcripts of all prior university or college coursework (undergraduate and graduate).
3. Three letters of recommendations describing the individual's potential to complete the program (at least one from a current or former employer).
4. Current professional resume or curriculum vitae.
5. Application and supplemental documents must be submitted by the [published deadline](#).

These admissions requirements apply only to the graduate certificate program in Clinical Research Operations. Students interested in combining the certificate program with a master's degree will have to meet all admission criteria for that degree.

Policies Governing Certificate Admission Criteria and Subsequent Admission to Graduate Degree Programs

The certificate admission criteria and policies governing the relation of certificates to graduate degree programs include the following:

1. No transfer credit from another institution will be counted toward the completion of the certificate program.
2. A certificate graduate student may enroll on either a part-time or a full-time basis.
