* Core courses – must be taken during the first 2 semesters

[±] CLR 597 Master's Project (Capstone): 3 credits hours over 2 semesters

Part 1 - Proposal writing and proposal defense (2 credits)

Core courses are required before enrolling in CLR 597 with instructor approval.

During the spring semester (eg, February), student will receive a registration notice of their expected enrollment in Part 1. Students must inform the CCC by the stated deadline (eg, March 1st) of the student's intent to enroll in the CLR 597 for the fall or spring term.

Part 2 - Completion of project and final project defense (1 credit)

Notes: Summer courses may be offered. Check with your advisor or SeaNet.

Full-time status in the UNCW Graduate School is 9 credit hours or more.
