51

The total number of clients the CIE nonprofit consultant has met with as of September 30, 2017.

NONPROFIT CONSULTATION SUMMARY 2017

As an integrated "one-stop shop," the UNCW Center for Innovation and Entrepreneurship (CIE) has event space for training, co-working space for startups, incubator office space for qualified entrepreneurs, and access to experienced mentors, faculty and other UNCW resources.

In efforts to expand our services, our Nonprofit Consultation Program was established in 2016 with the goal of assisting social entrepreneurship ventures in the creation of exciting companies by providing advice on business plan development and organizational structure guidance.

We have had 22 social venture/nonprofit organizations register for membership within 3 months from July 2017 to September 2017. Efforts to expand continue in Q4. In addition to regular trainings and individual consultations, the Nonprofit Advisor-In-Residence has expanded his role to support our other UNCW partners in Social Entrepreneurship (i.e. ETEAL and QENO). Future efforts include facilitating a social entrepreneurship forum, continuing with grant-writing seminars (in partnership with UNCW CHHS staff for Cucalorus Connect 2017 & CIE) and continued progression toward the development of a small business which enables CIE to expand its partnerships to ensure the Nonprofit Advisor and those clients remain continue adding value for CIE in 2018.

Thank you,

University of North Carolina Wilmington Center for Innovation and Entrepreneurship
