

# McKenna Weisbarth

**Major:** Business Administration  
concentrating in Finance and Economics

**Graduation:** May 2018

**Hometown:** Cleveland, Ohio

**Things I love about Wilmington:** the beach, the sunsets, the restaurants, and UNCW!

**My Philosophy:** To provide students with all their options and make them aware of all the resources they have at UNCW in order to help them reach their full potential academically and personally.

**My Mission:** To help students plan out their future in order to reach all their goals while they are in college. I am looking beyond the short-term and want students to be aware of all their options so they can plan out their future accordingly.

### **Tips for Academic Success:**

- 1.) Plan out your schoolwork. If you set your own timeline to get your work done, you are more likely to stick to your plan and less likely to procrastinate doing your work.
- 2.) Get to know your professors. They have a world of knowledge and a lot of tips for success that can help in and out of the classroom.
- 3.) Establish a study routine and study habits. That might include studying at a certain place on campus or studying at a certain time during the day.
