

UNCW JOB HAZARD ANALYSIS PPE CHECKLIST

NAME:	DATE:
DEPARTMENT:	
PHONE NO.:	
SUPERVISOR:	
POSITION TITLE:	

	<p>Eye Hazards may include the following: working with chemicals, chipping, sanding, grinding, welding, metal & wood working, radioactive materials, biological substances/organisms, laboratory work/research.</p>		
Check the appropriate box for each hazard:	YES	NO	DESCRIPTION OF HAZARD:
Chemical Exposure			
Dust/Flying Debris			
Light/Ionizing Radiation			

	<p>Head Hazards may include the following: working below other employees who are using tools or materials that could fall; working on energized equipment; and working in confined spaces & trenches, construction sites.</p>		
Check the appropriate box for each hazard:	YES	NO	DESCRIPTION OF HAZARD:
Impact			
Electrical Shock			
Other			

	<p>Noise Hazards may include the following: grinding, sanding, using pneumatic equipment, generators, motors, boilers, jackhammers, lawn equipment, working in heating plant.</p>		
Check the appropriate box for each hazard:	YES	NO	DESCRIPTION OF HAZARD:
Noisy Work Environment			

	<p>Foot Hazards may include the following: exposure to chemicals, welding, cutting, materials handling, demolition, renovation, construction, electrical work, flammable or explosive materials, forklifts, and heavy moving equipment.</p>		
<p>Check the appropriate box for each hazard:</p>	<p>YES</p>	<p>NO</p>	<p>DESCRIPTION OF HAZARD:</p>
<p>Chemical Exposure</p>			
<p>Impact/Compression</p>			
<p>Slip/Trips/Falls</p>			
<p>Puncture</p>			
<p>Slippery/Wet Surfaces</p>			
<p>Electrical</p>			
<p>Flammable/Explosive Atmospheres</p>			

	<p>Hand Hazards may include the following: work with chemicals, abrasion/cut hazards during demolition & renovation, woodworking, hot or cold objects/materials, medical facilities, lab research, radioactive & biological materials. ADDITIONAL TRAINING REQUIRED VIA EH&S FOR BLOODBORNE PATHOGENS.</p>		
<p>Check the appropriate box for each hazard:</p>	<p>YES</p>	<p>NO</p>	<p>DESCRIPTION OF HAZARD:</p>
<p>Chemical Exposure</p>			
<p>Cuts/Abrasion</p>			
<p>High Heat/Cold Temp.</p>			
<p>Electrical Shock</p>			
<p>Puncture</p>			
<p>BBP/Infectious Waste</p>			

****NOTE: THIS MEETS THE REQUIRMENTS FOR 29CFR1910.132****

	<p>Body/Torso Hazards may include the following: chemical/hazardous material exposure, abrasive blasting, welding, cutting, brazing, chipping, sanding, grinding, using chain saws, asbestos work, boiler work, high heat/cold, radiological or biological work,</p>		
<p>Check the appropriate box for each hazard:</p>	<p>YES</p>	<p>NO</p>	<p>DESCRIPTION OF HAZARD:</p>
<p>Chemical Exposure</p>			
<p>Abrasion</p>			
<p>High Heat/Cold Temp.</p>			
<p>Impact</p>			

	<p>Respiratory Hazards may include the following: using certain chemicals outside a fume hood, applying paints/chemicals in confined spaces, welding certain metals, disturbing asbestos, lead, or mold. ADDITIONAL TRAINING REQUIRED VIA EH&S.</p>		
<p>Check the appropriate box for each hazard:</p>	<p>YES</p>	<p>NO</p>	<p>DESCRIPTION OF HAZARD:</p>
<p>Chemical Exposure</p>			
<p>Confined Space Work</p>			
<p>Particulate Exposure</p>			
<p>Welding/Cutting</p>			

	<p>Drowning Hazards includes any employee that works over or near water where the danger of drowning exists.</p>		
<p>Check the appropriate box for each hazard:</p>	<p>YES</p>	<p>NO</p>	<p>DESCRIPTION OF HAZARD:</p>
<p>Immersion</p>
