

Tent/Inflatable Permit Application

The NC Fire Prevention Code requires tents, canopies and other membrane structures (i.e. Inflatables) to be evaluated for fire and life safety and a permit issued prior to the event. For all State-owned property, the NC Department of Insurance (NCDI) is responsible for that evaluation and granting of a permit. Upon obtaining satisfactory evidence that the proposed structure will be in accordance with minimum Code requirements, NCDI issues a permit in the form of a signed approval letter/e-mail. Applicants must submit a completed application with required attachments to Environment, Health and Safety (EH&S) at least 30 days prior to the event. EH&S will submit to NCDI for review/approval and provide notification to applicant regarding status of the permit. For questions/additional information, contact EHS at 962-7258 or fulfordc@uncw.edu.
