On April 15, the following email was sent to EHRA and SHRA faculty and staff who were employees of record during September, 2018, at the time of Hurricane Florence. Please check your inbox for a message from Hagerty Consulting that provides a link to the Hurricane Florence survey. The survey will remain open through close of business April 23, 2019.

Dear Campus Community:

As you may recall from the March 20th campus message from Chancellor Sartarelli, UNCW has selected our firm, Hagerty Consulting, to conduct a review of the university’s preparedness, response, and recovery activities pertaining to Hurricane Florence. The intent of this process is to inform updates and improvements to UNCW’s Emergency Operations Plan (EOP) which will make the university more resilient for future storm events. As part of this process, we are asking you to complete a short survey to help us gather valuable feedback pertaining to UNCW’s emergency preparedness operations and related campus activities. Results of the survey are entirely confidential and will be reviewed only by officials from the Hagerty Consulting firm.

If you have any questions, please contact us at HurricaneFlorenceSurvey@HagertyConsulting.com. Please click the button below to start the survey. Thank you for your participation – we appreciate your input!

Regards,

Hagerty Consulting
