The UNCW Center for Innovation and Entrepreneurship (CIE) in partnership with the Cameron School of Business and with the help of Watson College of Education is launching a year-long Youth Entrepreneurship Program Experience (YEPEX) this academic year. For 2018-19, high school students will be provided the opportunity to explore the world of innovation, entrepreneurship, and business development through monthly meetup sessions at the CIE. These sessions will be available remotely in an effort to reach out to the surrounding eight counties. Each meetup will include a guest speaker who will talk for 15 minutes about their role and experience in a certain field (education technology, product development, social entrepreneurship, etc.) followed by a hands-on activity for students to work together to complete. Students will develop new ways of thinking and approach problem-solving with creative, innovative solutions in anticipation of the Chancellor’s Innovation and Entrepreneurship High School Competition in March 2019.
