

UNCW Internal Funding Awards: ETEAL, SURCA, Community Engagement, Cultural Activities

Instructions and Guidelines

1. All applications must be received by 5:00pm on Monday, October 1st in order to be considered.
2. You may apply to as many internal applied learning awards as you would like for a given project, but please keep in mind that all award granting offices will coordinate funding according to the needs of each project. This is to ensure that funding resources can be distributed across as many projects, instructors, and disciplines as possible.
3. All submissions must route to your Department Chair, School Director, or other Direct Supervisor for their approval. All project members must receive approval from their direct supervisor, so if you have multiple project members please ensure that all of their direct supervisors are included in the approval routing step. If any project member reports directly to another member of the project, it is not necessary to include them in the routing step.
4. All uploads must be completed according to the instructions provided. If you upload incomplete materials, your application may not be considered for funding.
5. Post grant requirements include submission of a written report of project results and expenditures to the granting office, as well as possible participation in professional development workshops and/or participation in public events highlighting project results. Other Assessment requirements may apply. Please review the supplemental materials for each award for details.

Project Information: Please answer the following questions on one page

1. Detail the student(s), and courses if applicable, involved in this project.
2. Outline and explain your project activities, timeline, and goals.
3. Describe how students will be involved in this project, the applied learning and/or research activities they will take part in, and your overall goals for the students taking part.

Assessment: Please answer the following questions on one page

1. Describe your course/project's Learning Outcomes.
2. Describe the anticipated impact of your project. Will this project be sustained, and how will you sustain it? Does this project have potential impact beyond the participants involved and/or beyond UNCW?
3. Outline the plan for dissemination of findings/research/creative scholarship to all participants involved in the project, as well as to others in the field/region and beyond.
