

QEP Open Forums

Learn about the updates and provide feedback to refine our Applied Learning QEP

What's new with our QEP?

The Quality Enhancement Plan Task Force has worked hard over the summer with the Pilot team implementation. To **update** the campus community and **solicit your feedback** we are having three Open Forums in late September and early October. The **entire campus community is encouraged to attend!** Every voice is important and the more varied the input received, the more enhanced the learning experience of all students at UNCW will become through the QEP.
