

UNCW MFA in Filmmaking

Creative Work Sample Instructions

All applicants must include links to creative film or video work on Vimeo.com as part of the Statement of Purpose submitted with their application. The Statement of Purpose must also include a description of the work that includes your role in each project, and the date each project was completed. Creative film or video work samples may be of any style or genre. You may submit multiple samples of creative work, but the total running time of all samples must be at least 5 minutes and no more than 20 minutes.

Creative film or video work samples must be [uploaded](#) to [Vimeo.com](#). A free Vimeo Basic account allows users to upload files of up to 500MB. If your video is larger than 500MB, you may consider a Vimeo Plus account (upload files up to 5GB), or compressing your video to a smaller file size. For more information, consult the [Vimeo Help Center](#) and [Compression Guidelines](#).

Videos uploaded to Vimeo are live and viewable to the public. You may [password-protect](#) your video. If your work on Vimeo is password-protected, include the passwords in your Statement of Purpose as part of the description of your creative film or video work sample. Only members of the UNCW MFA in Filmmaking admissions committee will view your video.
