

GRADUATE SCHOOL

Master of Arts in Psychology Research Interest Form

Directions:

NAME:

1. Psychology faculty members will accept graduate students to work in the general research areas listed below. All students in the Psychology Master's Program complete an empirical thesis. Please go [HERE](#) to read more about each area and the faculty who conduct research in the area. Using a scale of 1 to 5 (where 1 = *no interest* and 5 = *enthusiastic interest*) please indicate your interest in conducting research in the following areas for your thesis.

Animal Behavior Developmental and Lifespan Psychology

Behavior Analysis Forensic/Legal Psychology

Behavioral Pharmacology Industrial/Organizational Psychology

Clinical Psychology Personality

Cognitive Psychology Physiological Psychology and Neuroscience

Community and Environmental Psychology Social Psychology

Cross-Cultural Psychology Substance Abuse

Other:

2. Using the same 1-5 rating scale as in #1, please indicate your interest in the following:

Research involving children as subjects.

Research involving adolescents as subjects.

Research involving adults as subjects.

Research involving older adults as subjects.

Research involving nonhuman animals as subjects.
