We are pleased to inform you that on November 26, Qualtrics, a university tool, is going to become a “single sign-on” platform. This means you will no longer need to remember a separate set of credentials, and instead, will be able to log in using your UNCW credentials and access all of your projects, instruments, and data. No other changes will be made to your account, and we think this will greatly improve your use of Qualtrics.

Please note: the system will be down on November 26th from 7:30AM-11AM to transfer all users.

To access or obtain an account after this date, please go to this website: https://uncw.az1.qualtrics.com

Additionally, we have added a new feature: **Offline App.** This means survey responses can now be collected in the field, without an internet connection!

Questions? Please contact UNCW Institutional Effectiveness at ie@uncw.edu
