

# echo<sup>360</sup> Cheat Sheet for Students

## What is Echo360?

**Echo360** is the video streaming platform for UNCW faculty, staff, and students. You can use this platform to store your video or audio files and even your Zoom (cloud-based video conferencing tool) recordings.

**To learn more about Echo360**, please check out the how-to guides down below.

## Getting Started with Echo360

- [How do I activate my Echo360 account?](#)
- [What are the recommended browsers when using Echo360?](#)
- [How do I navigate around Echo360?](#)
- [How do I edit my videos in Echo360?](#)
- [How do I verify that my Zoom recording settings are compatible with Echo360?](#)
- [What is the difference between using Echo360 and using Universal Capture?](#)
- How do I use the Echo360 app? ([Echo360 Support Article](#)) ([Video](#))
- [What is Echo360's Privacy Policy?](#)
- [What is Echo360's Accessibility Statement?](#)

**Did you know?** Echo360 Support provides quick Echo360 how-to videos for students in [their educational library](#). **If you need assistance with Echo360**, please contact [TAC](#).

## Sharing Echo360 Videos in Canvas

- [How do I submit my Echo360 video in an assignment in Canvas?](#)
- [How do I share my Echo360 video in a discussion board?](#)

## Viewing Echo360 Videos in Canvas

- [How do I view closed captioning on an Echo360 video?](#)
- [How do I view an Echo360 video in full screen?](#)
- [How do I view Echo360 videos in my course that have poll questions?](#)
- [How do I respond to poll questions?](#)
- [How do I respond to polling slides using my phone?](#)

## What is Universal Capture?

**Universal Capture** is a Screencasting software provided by Echo360 that captures audio, computer, and video simultaneously.

To learn more about **Universal Capture**, please check out the how-to guides down below.

### Getting Started with Universal Capture

- [How do I download Universal Capture on my computer?](#)
- [How do I start a recording in Universal Capture?](#)
- [What kind of input options are available when using Universal Capture?](#)

***Did you know?** Videos recorded using Universal Capture are automatically uploaded into your Echo360 library. **If you need assistance with Universal Capture**, please contact [TAC](#).*

## What is an Echo360 Course?

**Echo360 courses** allows your instructors to organize their lectures by subject matter or topic by placing videos into folders that can be linked into your course in Canvas.

To learn more about **Echo360 courses**, please check out the how-to guides down below.

### Getting Started with Echo360 Courses

- [How do I access my instructor's Echo360 course in Canvas?](#)
- [What can I do in an Echo360 class \(player\) as a student?](#)
- [How do I use the notes feature?](#)

***Did you know?** If you use the notes feature while watching videos in an Echo360 course, Echo360 will automatically [create a study guide](#) for you. **If you need assistance with Echo360 Courses**, please contact [TAC](#).*
