**UNCW-Supported Instructional Technologies**

### Learning Management System Tools

**Canvas** is a cloud-based learning management platform that allows schools to build the digital learning environment that meets the unique challenges faced by their institution. [Click on the icon for how-to’s and/or video tutorials.](#)

**Turnitin** is an online plagiarism detection service that provides streamline grading and feedback. Turnitin can be integrated into an LMS. [Click on the icon for how-to’s and/or video tutorials.](#)

### Video Streaming Tools

**Echo360** is a video streaming platform where faculty can store videos. You can use Echo360 to store your video or audio files and even your Zoom (cloud-based video conferencing tool) recordings. [Click on the icon for how-to’s and/or video tutorials.](#)

### Lecture Capture Tools

**Universal Capture** is a screencasting software provided by Echo360 that captures a combination of audio, computer, and video simultaneously. [Click on the icon for how-to’s and/or video tutorials.](#)
Video Conferencing Tools

**Zoom** is a cloud platform for video and audio conferencing, chat, and webinars. Meetings can be recorded locally or to the cloud with searchable transcripts. Zoom has built-in collaboration tools that allow participants to share their screens simultanously and co-annotate for a more interactive meeting. Zoom also allows users to create virtual breakout rooms during the meeting. Click on the icon for how-to’s and/or video tutorials.

Closed Captioning Tools

**Rev** is an online audio transcription, video captions, and document translation service. As part of UNCW commitment to providing accessible course (asynchronous, synchronous, web-enhanced) material, UNCW Distance Education and eLearning is offering closed captioning and transcription services for video and audio files (educational purposes only). CC Turnaround: 2 weeks. Click on the icon to submit a CC request.

Assessment Tools

**Respondus 4.0** is a tool for creating and managing exams that can be printed to paper or published directly to Blackboard Learn, Brightspace, Canvas, Moodle, and other learning systems. Exams can be created offline using Microsoft Word or moved from one LMS to another. Click on the icon for how-to’s and/or video tutorials.

Collaborative Media Tools

**Respondus LockDown Browser** is a custom browser that locks down the testing environment within Canvas. **Respondus Monitor** builds upon the power of LockDown Browser, using a student’s webcam and industry-leading video analytics to detect & deter cheating during non-proctored exams. Click on the icon for how-to’s and/or video tutorials.

**VoiceThread** is a collaborative, multimedia slide show that holds images, documents, and videos and allows people to navigate slides and leave comments in 5 ways - using voice (with a mic or telephone), text, audio file, or video (via a webcam). VoiceThread can be intergated with a LMS. VT functions like a face to face discussion session but in an asynchronous format. Click on the icon for how-to’s and/or video tutorials.
