

PERMIT APPLICATION INSTRUCTIONS

- ➔ Clean and dry the area where the permit will be applied.
- ➔ Peel the permit around the outer edges in a circular fashion. Continue until the decal is completely detached from the backing.

Application to Vehicle

Place the decal on the outside bottom left rear windshield or left rear bumper.

Application to Motorcycle

Permits on motorcycles must be affixed to the fork or displayed in a lockable hanger, in a place that does not interfere with the vehicle operations.

Multi-Vehicle Hanger Permits

Multi-vehicle hang style permits must be hung from rear-view mirror. If you do not have a rear-view mirror, the permit should be placed on the driver's side dashboard with permit number visible.

NOTICE TO STUDENTS

UNCW assumes no responsibility for loss or damage to the vehicle or its contents. Cars are parked at the owner's risk.

Occasionally, the UNCW campus hosts events that require special parking needs. While providing parking for students is our priority, these events occasionally require us to temporarily move students to other nearby parking areas. While this is a rare occurrence, parking will continue to be available. When this happens, you will be notified in advance when possible.

Please contact the UNCW Parking & Transportation Office with any questions.
