You wanted to see a student's courses that were in progress at other institutions display on the degree audit. We are testing now, and plan on implementing Spring 2018. More to come on this topic at the fall forum.

## YOUR POST HERE!

## Ellucian's Student Educational Planner (SEP)

Along with the new Degree Works degree audit, we now have Student Educational Planner (SEP) software. This is a tool to use roadmaps of sequences of courses in order to minimize excess credits and graduate on time. Students and advisors lay out a recommended sequence of courses to efficiently plan for degree requirement completion.

Our office is creating one initial plan per major to help campus implement this tool. More to come on the SEP in the fall forum.

## Residency Determination Service

The new Residency Determination Service for all public and private colleges and universities in North Carolina is now up and running. Right now, only undergraduate students are having decisions made through RDS. Our office is receiving numerous automated updates every morning for decisions from RDS. We are hearing from some students who expect that their status has been updated at UNCW only to find it has not occurred yet. Cases we have seen of this result from either the automated update having not occurred yet or that the student received a "preliminary in-state" decision that still needs to be "validated" by RDS. Our office can trigger a manual update if you send us the ID number to [registrar@uncw.edu](mailto:registrar@uncw.edu). If the student's decision is not validated, the student should contact RDS directly.
