Optimized Academic Scheduling – Starting in Fall 2018

We are “Wings Up” for Optimized Academic Scheduling! February 12, the Office of the Registrar will begin the optimization process with an initial week of cleanup, followed by several weeks of running multiple scenarios. Since November 20, schedule builders have been working hard at building each course and section, attaching the pedagogical needs of each course, and being the middle person between departments and us. This project wouldn't be a success without all of their hard work. Make sure you thank them (and maybe buy them a cup of coffee).

Our web pages have been updated. Check them out for the latest list of optimized classrooms, definitions, instructions, and FAQ.
