LEADERSHIP ESSENTIALS FOR NURSES
FULLY ONLINE COURSE
Oct 4 - Nov 7, 2021

Description:
This online program provides key leadership skills for new and aspiring nurse leaders to take on jobs such as Nurse Manager, Administrative Coordinator and Coordinator through an excellent e-learning experience. Participants complete the program over 5 weeks with modules covering topics such as Emotional Intelligence, Conflict Management, Basic Accounting and Finance, Ethics and Legal Issue, as well as improving Operations and Employee and Patient Satisfaction.

Objectives:
• Understanding leadership qualities and competencies
• Understand business components of healthcare and how they relate to new aspiring leaders
• Modules included in the program:
  • Introduction to Healthcare Management
  • Human Resource Management
  • Effective Team, Mindfulness, & Conflict Management
  • Accounting, Healthcare Revenue Models, & Financial Management
  • Quality Improvement: Patient & Employee Satisfaction
  • Ethical, Legal & Regulatory Issues

Target Audience:
• New nurse leaders
• Nurses who aspire to be front-line managers
• Nurses in rural healthcare settings
• Nurses who want to have a more comprehensive scope of healthcare management

Session Highlights:
• Engage participants in videos, online discussions, and self-assessments
• Work with peers for the case study on fictional Swain Hospital located in rural Southeastern NC
• Learn from nursing professionals as well as business leaders who can provide insight to the inner-workings of the industry

FEE: $499
