

Dear Colleagues,

The IIUI-UNCW partnership grant team invites you to submit proposals for funding to support projects aligned with the IIUI-UNCW grant goals, which emphasize collaboration to enhance teaching, research, and community engagement at UNCW and IIUI. Funding is open to faculty from all departments as long as the proposals closely match the grant goals. The deadline for submitting your proposal is April 30, 2017. Please review the attached application form and description of our supported projects program for more information.

We would also like to inform you that six scholars from IIUI are in residence at UNCW until the end of June. These scholars come from IIUI's English and International Relations departments. Please seek out opportunities to engage with them. Furthermore, IIUI will be hosting an international conference in September 2017 as part of our grant. We invite you to consider participating in this event.

Opportunities to travel to Islamabad are funded separately; please indicate in your project proposal if you are interested in going to Pakistan.

We look forward to learning about the projects you have in mind.

Sincerely,

Carrie Clements
