

B. S. Computer Science (CSC) / Computer Engineering (ECE) 3+2 Program*College: Arts & Sciences*

Course requirements for all UNCW degrees include: (1) [University Studies](#), (2) specific major requirements, and (3) sufficient elective hours for a combined total of a minimum of 124 hours.

MAJOR REQUIREMENTS – CSC (Minimum 61 hours, while at UNCW)

The Three-Plus-Two Computer Science and Electrical or Computer Engineering Program is a cooperative agreement between the University of North Carolina Wilmington Computer Science Program and the North Carolina State University Computer Engineering Program. The program gives students the opportunity to earn a Bachelor of Science degree in computer science from the University of North Carolina Wilmington and a Bachelor of Science degree in electrical or computer engineering from North Carolina State University. Students must complete all course work listed below to satisfy the Three-Plus-Two Program requirements. This UNCW phase of study can be completed in three years. Students meeting NCSU's transfer admission requirements (see below) are accepted in the Computer Engineering Program at NCSU. This program can be completed in two years and a summer session. UNCW will accept credits from NCSU to complete degree requirements at UNCW and NCSU will accept credits from UNCW to complete degree requirements at NCSU. Thus, the student receives a degree from UNCW and a degree from NCSU.
