## UNCW/NCSU 3+2 Double Major Program:

**B. S. Computer Science (CSC) / Computer Engineering (CPE) or Electrical Engineering (EE)**  
*College: Arts & Sciences*

Course requirements for all UNCW degrees include: (1) University Studies, (2) specific major requirements, and (3) sufficient elective hours for a combined total of a minimum of 120 hours.

### MAJOR REQUIREMENTS – CSC (Minimum 61 hours, while at UNCW)

The Three-Plus-Two Computer Science and Electrical or Computer Engineering Program is a cooperative agreement between the University of North Carolina Wilmington Computer Science Program and the North Carolina State University Electrical and Computer Engineering Program. The program gives students the opportunity to earn a Bachelor of Science degree in Computer Science from the University of North Carolina Wilmington and a Bachelor of Science degree in Electrical or Computer Engineering from North Carolina State University. Students must complete all course work listed below to satisfy the Three-Plus-Two Program requirements. The UNCW phase of study can be completed in three years. Students meeting NCSU’s transfer admission requirements (see below) are accepted in the Electrical or Computer Engineering Department at NCSU. This program can be completed in two years and summer sessions.

UNCW will accept credits from NCSU to complete degree requirements at UNCW and NCSU will accept credits from UNCW to complete degree requirements at NCSU. Thus, the student receives a degree from UNCW and a degree from NCSU. The 3+2 Program must be started in the Fall of Freshman Year if it is to be completed in 5 years. For more information, visit [http://uncw.edu/preeng/](http://uncw.edu/preeng/)

### Notes:

- A student must finish the UNCW phase of study with an overall GPA of at least 3.00, earn at least a 2.00 GPA at NCSU via distance education courses, and have at least a 2.50 GPA in the last two calculus courses attempted to meet NCSU’s transfer admission requirements. Students in this program will be advised jointly by the chair of the Department of Computer Science and the director of the Engineering Program at UNCW to assure completion of the correct requirements for both programs.

*These courses require a lab
+May also be used to satisfy University Studies Foundations & Approaches and Perspectives requirements

All UNCW University Studies must be completed.

---

**Requirements to declare CSC:** Completion of 24 hours  
For further information, see the CSC website: [http://www.uncw.edu/csc](http://www.uncw.edu/csc)
